

## A ALASKA AIR COMPRA A VIRGIN AMERICA

Alaska Air compra Virgin America criando assim a quinta maior companhia aérea americana. A Virgin America é detida em 54% pelo grupo Virgin e o fundo Cyrus Capital Partners. An airline merger is a complex process that takes some time to complete. For the next several months, until the transaction is officially approved by shareholders and regulators, it will be business as usual and Virgin America and Alaska will continue to operate as independent airlines.
